

CO₂ CONTROLLER FOR INCUBATOR

All incubators can be upgraded to a CO₂ incubator with our gas controller, which can be used for continuous cell culture and other culture tasks.

Specifications

- **Accurate gas control system:**

CO₂ control range: 0.03% - 20.0%, in increments of 0.1%

Range of Humidity: Room humidity to 75%, in increments of 0.1%

- **Sensor calibration:**

The CO₂ can be calibrated by one-touch or known points calibration

- **Data recording:**

USB data logging system with continuous data storage in Excel: time, date, CO₂ (set/actual)

Application Field

- Cancer research
- Stem cell research
- Nerve disease
- Cardiac muscle cell
- Metabolic disease
